Introduction

Help a Child is a Christian, international relief and development organization, founded in 1968 in the Netherlands. As a Christian non-profit organization, Help a Child wants every child – regardless of their social, political, religious, ethnic or economic background – to have a life in dignity, with love and with a promising future.

Our thematic areas of focus are: child protection, parenting, Early Childhood Development, education, social and economic resilience, Food security and livelihoods.

As part of our growth ambition, Help a Child is seeking to identify local Christian child-centred Non-Governmental Organization for potential collaboration in implementing Child Centred Community Development (CCCD) programs in **Uganda** subject to funding availability.

Scope of work

Our main goal is to improve child wellbeing in a sustainable way. From the perspective of holistic child development, our approach is integrated community empowerment in which different angles are envisioned.

Our unique Child Centred Community Development (CCCD) projects that typically run for 5 – 8 years are funded through two sponsorship models namely the Community Ambassador Model (CAM) and Family Ambassador Models (FAM).

The successful applicant will be required to support implementation of a CCCD program through:

- Interventions with (young) children themselves to encourage and empower them so they are able to develop properly at all levels.
- Interventions with their parents to ensure they are able to take care of themselves and their (young) children

- Interventions with the whole community and other stakeholders to set up systems which can take over the work of our partner organization.
